Going to university is a time of great opportunity, a time for personal growth and development. Our degree courses blend academic challenge with work-related experiences and engagement which are embedded throughout our curriculum. We take pride in our strong links with business, industry and public and voluntary sectors, which help us prepare our students well for successful careers. More than 95% of our students are employed or in further study within six months of graduation, and are highly valued by employers.

Take advantage of the many presentations available today, explore our facilities and talk to our staff and students who are here to advise and help you.
