

# **Undergraduate Prospectus 2023**

## **WELCOME**

### **Hello!**

Welcome to our prospectus. In these pages you'll find information about who we are, our courses and campuses, and why being part of Edinburgh Napier University could be exactly right for you.

Helping people get the careers they love is what we're all about. You may not know yet what you want to do but our work-focused courses will ensure you'll be ready to make a difference whatever path you follow.

Learn from expert academics with up-to-date business and industry knowledge and gain opportunities to experience the real world of work. Our focus is to enhance your employability by developing the skills you need to succeed.

We know there's lots to think about when considering courses, so remember, we're here to help. You can talk to us about what to study, and where it might lead, and ask us all the questions you want about being part of Edinburgh Napier University.

**With us, you come first.**

## **WHY ENU**

# **Why you belong at Edinburgh Napier University**

***Become part of the top ranked Scottish modern university***

(The Times/Sunday Times Good University Guide 2022)

So, what does that mean? Well.....

## ***.....we put you at the heart of what we do***

We are the **NUMBER ONE** university in Edinburgh for student satisfaction  
(National Student Survey 2020 and 2021)

## ***.....we give you the skills and experience that matter***

We score highly in terms of graduate employability: 93.7% of undergraduate students and 95.1% of postgraduate students are in work or further study 15 months after graduation (HESA 2018/19).

## ***.....we nurture your talent and abilities***

We are in the top ten out of 121 UK universities for 'Value Added' which rates how effectively students are taught. (Guardian University Guide 2022)

---

### **WHY ENU**

## **What we do**

### ***We develop highly valued, career-ready graduates. How?***

*By combining professional know-how with an academic approach to deliver effective work-related learning.*

Find out more: [napier.ac.uk/UG-learning](https://napier.ac.uk/UG-learning)

### ***We support you all the way. How?***

*Through student-focused support services and caring staff, our commitment to ensuring you thrive is our chief concern – we've even won an award for it.*

Find out more: [napier.ac.uk/UG-help](https://napier.ac.uk/UG-help)

## ***We transform communities and improve lives in Scotland and beyond. How?***

*By developing socially-responsible graduates equipped to solve society's challenges and via our innovative, ethical research which improves wellbeing, sustainability and technological advancement.*

Find out more: [napier.ac.uk/UG-research](https://napier.ac.uk/UG-research)

---

### **WHY ENU**

## **Only at ENU**

### **First and foremost – some of the ways we make an impact**

#### **#1 for environmental sustainability**

We have been named the top university in Scotland for environmental sustainability and ethics according to the 2021 People and Planet University League

#### **Leading cybersecurity education**

We are the only UK university to have undergraduate and postgraduate cybersecurity accreditation, trusted by the National Cyber Security Centre

#### **Developing professionals with Scottish FA**

We're the first university in Scotland to partner with the SFA to offer a practical and theoretical degree to develop coaching professionals ideally suited to the modern game

#### **Impacting on healthcare practice**

We are the only university in Scotland to offer all four fields of nursing and midwifery pre-registration education and are the largest provider of nursing education in Scotland

#### **Boosting entrepreneurialism**

So far, we've supported over 600 student start-ups through our hub for innovation and enterprise, Bright Red Triangle, that's 27% of all student start-ups in Scotland between 2016 and 2020

#### **Creating opportunities for all**

We are the lead partner in the Edinburgh universities collaborative project, HUB for

SUCCESS, which increases educational opportunities for those who have been in care and/or are care-experienced

### **Leading with our hearts**

Our leading Artificial Intelligence research and data-driven solutions to cardiovascular health detection deliver technology-based solutions, which also enabled people to access healthcare during the pandemic

### **Supporting the armed forces community**

We are the first university in Scotland to receive a gold award from the MOD's Defence Employer Recognition Scheme for our educational support and commitment to the armed forces community

### **Campaigning for change**

We're changing attitudes through our Bleedin' Saor collective, which won a prestigious Times Higher Education Award in 2021, for its work around free sanitary products and breaking taboos

### **Built Environment Exchange (beX)**

Provides unique real-world learning experiences in sustainable construction through partnerships with international universities and the global construction industry

### **Get On Board programme**

Lets our students contribute to decision-making processes and network with top professionals through a placement on the board of a charity, voluntary organisation or public body

### **Award-winning students**

Our students consistently win top awards – before they graduate – including D&AD New Blood, DMA Breakthrough, Film G and Royal Television Society Awards

---

## **OUR LOCATION**

# **EDINBURGH**

## **One of the best student cities in the world**

Being a student at Edinburgh Napier makes you part of this amazing city. World-renowned for heritage, culture, festivals and tourism, Edinburgh has it all.

It's a special place, unlike anywhere else in the UK: a capital city with loads going on but small enough that you can get to know it well and find the areas and activities that best fit with what matters to you.

Filled with green spaces, incredible architecture, world-class restaurants and ghosts – in Edinburgh you can enjoy the beach, climb hills, discover independent shops, and experience art. The buzzing bar and music scene offers something for everyone. And of course, there are world-famous festivals and remarkable events, from the Edinburgh Fringe to Hogmanay.

As a student here you'll be part of a big community; Edinburgh welcomes thousands of students from near and far every year. It's a safe city too and easy to get around. You'll feel at home wherever you come from.

We love contributing to the city's dynamism through our students, staff, researchers and graduates. Join us and become part of it – we think studying here will make your student life a truly memorable experience.

Head to [napier.ac.uk/UG-Edi](https://napier.ac.uk/UG-Edi) for more about our magical city.

Each year, the QS Best Student Cities index looks at various aspects of a city, such as the student mix, quality of living and affordability, to identify the best student cities worldwide. Edinburgh is ranked 12<sup>th</sup> in the world and 2<sup>nd</sup> in the UK\*. Quite simply, it's a great place to be a student.

*[\*QS Best Student Cities 2022].*

---

## OUR LOCATION

# EDINBURGH

## / MAPPING THE CITY

### Study in the best location

Wherever you are in the world, Edinburgh is closer than you might think, with a flight to London taking just 50 minutes, or a train ride from central Edinburgh to London's King Cross taking 4 hours 15 minutes.

What about the rest of the UK? Well, Edinburgh is a:

45-minute train from Glasgow

25-minute train from Livingston

35-minute train from Dunfermline

45-minute train from Stirling

90-minute train from Newcastle

50-minute flight from Belfast

### What about getting around Edinburgh?

The Edinburgh bus network is first class for getting you around with over 70 different routes crossing all over the city. Our favourite is the number 36, which connects all three of our campuses to the city centre.

Our Sighthill campus is the furthest from the city centre but is still just a 20-minute tram ride from the main shopping area. And the very same tramline takes you all the way to the airport.

Thanks to its superb network of bike paths, you can reach many parts of Edinburgh on safe, traffic-free cycle routes.

---

## OUR LOCATION

# SCOTLAND

## There's nowhere like it

**Let Scotland bring another dimension to your student experience.** Considered the most beautiful country in the world (Rough Guides 2019), Scotland offers stunning scenery, vibrant cities and world-class attractions – you'll never be stuck for something to do when you want to take a break from your studies.

Whatever you're into, you can do it here: cycling, ziplining, kayaking or white-water rafting; walk a scenic hiking trail, climb a mountain, or head to the ski slopes of Glencoe. You can dolphin and seal watch at nearby South Queensferry, or go further afield to hunt for the infamous Loch Ness Monster! We've local beaches at Portobello and Silverknowes or head to North Berwick or St Andrews for stunning sands.

If history is your thing, there are famous castles, legendary battlegrounds, standing stones and more. Or visit the iconic landscapes featured in films and TV from James Bond and Harry Potter to Outlander. Scotland's cities are all easy to reach: jump into vibrant cultural experiences from Glasgow's legendary music scene to dynamic design in Dundee.

In Scotland you're never far from something new and exciting to do.

To find out more check out [napier.ac.uk/UG-Scotland](https://www.napier.ac.uk/UG-Scotland)

---

## OUR LOCATION

## OUR CAMPUSES

We have three campuses, each defined by distinctive features and course-specific facilities, as well as by the people (like you!) who study with us.

Our campuses are much more than where you go to class. Each is set up to be a second home for you while you study, with free unlimited Wi-Fi, Espresso Lab cafes providing ethically sourced coffee, tea and more, lots of great study spots and plenty of space to meet up with friends.

All of our campuses are within twenty minutes of each other and the city centre, so it's easy to access facilities or connect up with friends, wherever you are based.

Head to [napier.ac.uk/UG-campus](https://napier.ac.uk/UG-campus) for the full low-down about each campus

## Craiglockhart

Home to our Business School, Craiglockhart is a mix of the historical and the ultra-modern in a gorgeous, park-like setting. The iconic Lindsay Stewart Lecture Theatre (known affectionately as “The Egg”) makes a great contrast to its historic wing, which was used as a military hospital during WWI and now hosts the War Poets Collection.

You'll find everything you need to become ready to succeed in the world of business, including lecture theatres, multimedia labs, plenty of computing facilities and dedicated library and support services. It's also home to our innovation and enterprise centre and Bright Red Triangle business incubator – open to all students, whatever subject they are studying – where you can kickstart ideas and develop your entrepreneurialism.

Relax in the picturesque greenery or hang out in the buzzing cyber café. You're within walking distance to local cafes, restaurants and bars, and with the city centre close by, you can easily access all the benefits Edinburgh has to offer.

Getting to Craiglockhart is easy as it's well-served by public transport and there are numerous cycle paths in the area. You'll find bike storage facilities on site.

---

## OUR LOCATION

### Merchiston

Our Merchiston campus is our historical heart – the 16<sup>th</sup> century tower at the centre of the campus is where our namesake, mathematician John Napier, was born. While it embraces the past, this high tech campus is all about the future – your future – with facilities from cutting-edge cybersecurity labs and specialist engineering laboratories, to state-of-the-art

music, TV and film studios. It's where our creative, engineering and computing students are based.

The Jack Kilby Computing Centre (JKCC) at Merchiston is open 24 hours a day, 7 days a week, and offers user support for over 70 hours per week during Trimesters 1 and 2. We have a Bright Red Triangle business incubator here to support student enterprise and start-up ideas, and the campus is the main home of the University's student union ENSA.

Situated in the lively neighbourhood of Bruntsfield, you can easily relax in buzzing independent cafes, restaurants and bars, or walk to popular hangout spot The Meadows for a breath of fresh air – a perfect place to catch up after lectures.

---

## OUR LOCATION

### Sighthill

The Sighthill campus is our largest campus, filled with smart spaces and awesome views over the city. Home to our health and science students, it provides high quality facilities including the purpose-built Simulation and Clinical Skills Centre, specialist labs, and our environmental chamber – the largest facility of its kind in Scotland which simulates high-altitude conditions for training pro-athletes and supporting research.

The Sighthill Learning Resource Centre offers a range of study environments and high-tech smart spaces; pick the one that suits you best from a personal pod to a comfy couch, or head up to the top floor to soak up the view while you study. When you need a break there's a large on-site cafe and an Espresso Lab.

Sighthill is also home to our elite sports facility [EN]GAGE, open to all of our students wherever they may be based. These state-of-the-art facilities cater for all levels of ability; you can take part in a wide variety of sports, use the gym or attend one of the many regular fitness classes – this resource is here for you whatever you enjoy. Find out more at [napier.ac.uk/UG-play](http://napier.ac.uk/UG-play).

---

## OUR LOCATION

## ACCOMMODATION

### Our supportive community

One big change when you join Edinburgh Napier might be living away from home. It's an exciting part of student life for many of our students, and in student accommodation you'll be in it together, sharing space and experiences with new friends.

Living in our student accommodation you become part of a supportive community: our dedicated team of Accommodation staff and Resident Assistants are here to help you, providing guidance, advice, and out-of-hours assistance. They'll help you to settle in and get to know your neighbours through activities and events.

### **Our accommodation**

Student accommodation at Edinburgh Napier is affordable, modern and purpose-built, located in and around the city centre, and within easy access of our campuses. Most rooms are en-suite, and you'll have a double bed, a desk and high-speed Wi-Fi. You'll share a kitchen and living space with a communal smart TV and have access to a central laundry.

All our accommodation is comfortable and convenient – you'll find supermarkets, bars, restaurants, and usually cinemas, are all nearby.

### **Private accommodation**

Of course, you might choose to live in a private flat and we can help with that, with advice from how to deal with tenancy agreements to making sure you choose a great neighbourhood.

### **Our accommodation guarantee**

We guarantee an offer of accommodation to all first year and direct entrant undergraduate students who:

- have accepted an unconditional offer
- live outside the EH postcode
- apply before the deadline
- are staying for the full academic year.

Head to [napier.ac.uk/UG-home](https://napier.ac.uk/UG-home) for full details.

---

## **OUR LOCATION**

# **ACCOMMODATION**

## **What you need to know**

### **How do I secure a place?**

You'll be guaranteed a room if you're in your first year of studying, you live outside an EH postcode area, you're staying for the full academic year, and you're applying before the August deadline.

We also have specific arrangements and support in place for those coming from care-experienced backgrounds. More details can be found on our website.

**When should I apply?**

We usually start to accept applications for September 2023 intake from May 2023. You can apply online for a place via [napier.ac.uk/accommodation](https://napier.ac.uk/accommodation)

**What is the cost?**

It depends on your choice of accommodation. You'll find advice on costs and discounts online.

**Will I feel safe?**

Your comfort and safety are a top priority for us with support available 24hrs a day: from our full CCTV system and regular patrols to our Resident Assistants who live on site and are available every night. They can help if you're locked out, need advice or even just a chat. They are also trained in first aid, mental health first aid and conflict management.

**Where can I find out more?**

Head to [napier.ac.uk/accommodation](https://napier.ac.uk/accommodation) for videos of life in our accommodation, virtual tours of our sites, information about what's included and fees, and how to get in touch with our Accommodation office for further support.

---

**STUDENT EXPERIENCE**

## **BECOME WHO YOU WANT TO BE**

### **How we develop tomorrow's difference makers**

At Edinburgh Napier we not only teach you the vital knowledge that underpins your chosen subject but ensure you have essential 'employability' skills too.

Employability is all about being 'work-ready'. It goes beyond academic learning to focus on the key skills that will help you to succeed in the workplace: skills such as initiative, confidence, being a team player, and the ability to manage people and projects.

Our focus on employability means that 93.7% of our students are in work or further study 15 months after graduation (HESA 2018/19).

### **With us you'll gain the employability skills you need**

One of the main ways we develop your employability is through real-world work experience.

We embed work placement opportunities, or other work-related experiences, as part of our courses, and you'll have access to a dedicated Placements team too. They'll work with you to find an opportunity that's right for you and which will enhance your degree studies.

**Jessica McClure, BA International Festival & Event Management**

"Being able to complete a degree that enabled me to gain industry-experience was a leading factor in my choice to come to Edinburgh Napier. I undertook a six-month placement with the International Congress and Convention Association (ICCA), Amsterdam. Through it I learnt how to professionally interact with customers, stakeholders, and co-workers, that included people from just about every country where the cultural-business etiquette varied which was really interesting. The experience increased my contacts and my skillset, and I learnt what kind of work I enjoy."

**Andrew Beck, BEng Computer Systems & Networks**

"My 12-month placement was with TSB where I was part of the Chief Information Office Team, responsible for acting as the bridge between TSB's technical functions and its high-level executives. As part of my experience I visited TSB's data centre; seeing their primary servers provided me with a great opportunity to witness my course's theory implemented on a large scale. Through the placement I enhanced my soft skills and improved my understanding of how industry works. I now know that I enjoy incident management related roles, so I am considering this as my future career."

[Boxed quote]

**97% of our undergraduate students have the opportunity to undertake a work-related experience as part of their course**

## **STUDENT EXPERIENCE**

# **BECOME WHO YOU WANT TO BE**

## **Find the right path for you**

Choosing to study at university is a big decision and you want to be sure it will help you become who you want to be. At Edinburgh Napier we aim to guide you towards work that you will not only excel at but truly enjoy, so our teaching and learning, and comprehensive range of support, ensures you gain the knowledge and skills that can take you where you want to go.

## **Get a head start with industry-led learning**

All our courses are designed in consultation with business and industry, which means what we teach you will always be valuable to the employers you will seek out after graduating. For example, if you study Policing & Criminology, the syllabus has been created through direct input from Police Scotland. Our lecturers are not only expert academics and

researchers but have strong links to industry. For example, Computing Professor Bill Buchanan OBE is regarded as one of the top 100 people in Technology in Scotland.

**Michael Cesneau, Web Project Manager, IONIS Education Group**

“The capacity to learn new technologies and methodologies is the key skill you need to work in the ever-changing digital world. It quickly became a habit when I studied at Napier. We had a 24/7 access to first-class equipment and total support from our professors to explore new tech for our projects. I now manage a team of 20 web experts at France’s leading private education provider, and all the skills I learned help me to collaborate easily, whether I need to speak UI with a designer or data security with a developer.”

Learn more about how Michael achieved his career aspirations:

[napier.ac.uk/UG-michael](http://napier.ac.uk/UG-michael)

## **Make yourself distinctive**

It’s not just work placements that can develop the valuable skills you need to stand out. We can help you find a volunteering placement that will not only give you the buzz that comes from knowing you’re making a difference, but also help you to develop communication and organisational skills that you’ll need to ace interviews and make an impact in the world of work.

## **Get a global perspective**

Spending time studying at one of our international exchange partners, from Austria to Australia, will help you to understand world issues and other cultures, which can give you a real edge in today’s globalised job market.

## **STUDENT EXPERIENCE**

# **BECOME WHO YOU WANT TO BE**

## **With us you’ll be future-ready**

Student Futures is our dedicated group of employability experts who can provide advice and support to kickstart your future. With their expertise you can explore career options, work out the best strategy to get started in your chosen field, begin your professional development and hone the skills you need to impress employers.

Our digital platforms are open to all students at any time: you can browse online resources, advice and support, or use it to arrange one-to-one meetings with our Careers Development

Consultants, book a place at one of our many employer events, or search for part-time and graduate vacancies.

**Isla Toner, BA (Hons) Criminology, Click Women's Worker – Sacro, Edinburgh**

"I'd recommend to any student at Napier that they use all the resources that are available! I undertook a placement at Barnardo's Visitor Centre at HMP Edinburgh which helped to enhance my employability skills, and then the Graduate Recruitment Team (within Student Futures) supported me in a number of ways, providing useful guidance which helped me strengthen my application to Sacro. Never be too scared to ask for help!"

## **Start your own business**

Maybe your aspirations lie in creating your own world of work by starting a new business. Our Bright Red Triangle business incubator gives you access to our expert entrepreneur advisors and specialist business advice, as well as free office space. Over 2,000 students have used Bright Red Triangle since 2004, producing more than 600 businesses. Yours could be next.

**Shoe Fix Edinburgh - Euan Bodie, Lewis Holman and Hannah Thomson**

Marketing students Euan and Lewis, and sport and exercise science student Hannah, launched a new business while they were still studying at Napier. "We all have an interest in designer trainers and used to browse the web, and supermarket shelves, to track down the best product to clean our shoes. As students we couldn't afford to regularly replace those that we felt were beyond repair, so the idea for Shoe Fix Edinburgh grew from this problem. We were initially surprised with the interest in the service – we didn't expect to experience high growth in such a short space of time! We have used what we learnt at Napier to our advantage and made use of marketing communications to the best of our ability."

Learn more about this successful student business at:

[napier.ac.uk/UG-shoefix](http://napier.ac.uk/UG-shoefix)

---

## **STUDENT EXPERIENCE**

# **OUR LEARNING ENVIRONMENT**

## **Our expert teaching and leading facilities will enhance your learning**

At Edinburgh Napier our learning environment will help you to realise your potential and become a highly employable, confident individual with the knowledge and skills to make a difference.

### **Purpose-built facilities**

Whatever you choose to study, we teach you using fantastic facilities and equipment. You'll be able to surround yourself with the latest technology and resources no matter what field you're interested in. Our leading facilities include:

- NHS simulation wards
- Replica digital news centre with broadcasting booths
- Sports and exercise science suite with the largest environmental chamber in Scotland
- Professional photography, music and design studios
- Specialist engineering laboratories and a heavy structures lab
- Purpose-built life sciences laboratories

We continually update our facilities to reflect changes in technology and industry; for example, we have recently completed work on our biomechanics lab.

### **World-leading expertise**

When you study with us, you will learn from lecturers who are experts in their fields. Not only do they have unique links to business and industry that will maximise your employability, they are also nationally and internationally recognised for their research, working with organisations such as the European Commission, Greenpeace and Medical Research Scotland.

Check out [napier.ac.uk/UG-research](https://napier.ac.uk/UG-research) to find out more about our academics' world-leading research.

### **Top-ranked IT resources**

We're ranked in the UK Top 5 for students agreeing that our IT resources supported their learning (National Student Survey, 2021). Our 500-seat computer centre on the Merchiston campus is just one of the reasons why. Open 24/7 during trimesters 1 and 2, it means you always have access to the resources you need.

### **Study in the way that suits you best**

With our virtual desktop service you can access your files and the leading desktop software, at any time, any place. Your study materials – such as lecture slides and required readings – are hosted online, giving you the ability to study when, where, and however suits you best. Our computer suites and libraries have shared booths and media screens for group projects, or if it's peace and quiet you need, there are plenty of individual study rooms.

### **Extra support**

With laptop loans, free IT support and subject-specific librarians, you'll find the learning environment at Edinburgh Napier has everything you need to succeed.

Head to [napier.ac.uk/UG-tools](https://napier.ac.uk/UG-tools) to watch videos and check out 360 degree tours of the different facilities at our campuses.

[napier.ac.uk/UG-learning](https://napier.ac.uk/UG-learning)

---

## STUDENT EXPERIENCE

# HOW WE SUPPORT YOU

**It's important to us that you know help is available when you need it.**

When you join us you become part of our community and we pride ourselves on helping our community to flourish by providing the very best support that we can.

Through student-focused services and caring staff, we offer responsive and personalised support. Our 'open-door' policy means you can seek out advice, guidance and support from both our student support services and our academics whenever you need to.

### **Personal Development Tutor**

Every student at Edinburgh Napier is assigned a Personal Development Tutor (PDT) during the first few weeks. You can check in with them and ask questions confidentially about study, life, or anything else. Whatever you may need, your PDT will help you to find the right support.

### **Academic Skills support**

From managing your new workload to essay writing and exam preparation, we'll support you to become an effective, independent learner, so you can get the most out of your studies. We offer regular skills tutorials and online workshops, or you can arrange a personal advice session with an Academic Skills Adviser. There's also online resources and our Get Ready website with tips and advice from our students, all of which will help to build your academic and study skills.

### **Disabilities support**

We offer dedicated support if you have a disability or a specific learning difficulty. Our experienced, expert staff provide guidance and assistance, working with you to arrange support before you start your course and throughout your entire university journey.

### **Mental health and counselling**

We have qualified counsellors, CBT practitioners and mental health advisers who can offer a range of support, including counselling, mental health advice, wellbeing advice and mindfulness drop-ins.

### **ENSA Advice**

Edinburgh Napier Students' Association (ENSA) provides a free, independent, confidential and professional advice service for Edinburgh Napier students. It offers one-to-one advice on all your 'life admin': funding and benefits, accommodation and leases, employment rights and tax, health and wellbeing, as well as specific issues relating to your course, such as academic appeals and University rules and regulations.

### **English language support**

If English isn't your first language, we offer English for Academic Purposes (EAP) pre-sessional courses prior to you starting, and English support throughout the year. We also have academic skills classes to prepare you for a new learning experience as the UK education system can be different from what you are used to.

It's always good to know that guidance is on hand when you're feeling unsure. Head to [napier.ac.uk/UG-help](https://napier.ac.uk/UG-help) to see all the help that's available.

### **Edinburgh Napier University Wellbeing & Inclusion Campaign**

**GOLD AWARD WINNER**  
[HEIST Awards 2020]

---

## **STUDENT EXPERIENCE**

# **ACCESS FOR ALL**

**We believe anyone with the potential to succeed should have the opportunity to study with us**

Our community is one that welcomes anyone interested in developing their future through higher education. We recognise students are individuals and that not everyone's journey to, and through university is the same.

### **Here to help**

As part of our admissions process we take into consideration the context in which you have achieved your grades, which may have meant you faced more challenging circumstances. With our 'Contextual Admissions Policy' if you meet certain criteria, such as living in a certain area, going to a particular school, have been in care or are an unpaid carer yourself, you may be eligible for an offer based on our minimum entry requirements.

Our Widening Participation team is here to help. If you're unsure whether you are a widening access student, we can provide information, advice and guidance. You can contact the team directly on 0131 455 2300 or via [wideningaccess@napier.ac.uk](mailto:wideningaccess@napier.ac.uk).

Find out more at [napier.ac.uk/UG-all](https://napier.ac.uk/UG-all)

### **Adult returners**

We welcome adult returners and know that sometimes the standard selection process doesn't allow you to demonstrate all the skills you've acquired during employment or other experience. To ensure we can make an informed decision on your application we may ask you to provide more information, so you can tell us all about your potential.

### **Care experienced**

If you've been in care we have extra help for you. We offer the one-on-one support of a Student Adviser from pre-entry advice all the way through your time with us. Help we can offer includes a guaranteed year-round accommodation tenancy option and access to additional funding (including a bursary providing up to £1,000 per year of study).

### **Disabled Applicants**

Our Disability Inclusion team is here to support students with temporary or long-term health conditions, disabilities and additional needs. If you have a disability or medical condition, or you require additional support, disclosing it in your application means we can discuss with you what adjustments can be made and what support you'll require once you join us.

### **Armed Forces community**

We are committed to greater access to education for those leaving military service or in active service. We'll help you transition into university life or study while in service, including providing support through the Armed Forces Network. We are a recognised learner provider for the MoD's Enhanced Learning Credits Scheme.

### **Coming from college**

We welcome applications from students who are currently or have previously studied at College on either an HNC/D or Access programme. We provide pre- and post-transition guidance and you'll have a dedicated Coming from College Adviser who will support you right through to graduation.

**ESTABLISH** is our team of dedicated Widening Participation Student Ambassadors who host an online community of incoming widening access students, supporting them to get the most out of student life at Edinburgh Napier. ESTABLISH provides support in a year-long induction programme and looks to help students through times of increased pressure.

---

## **STUDENT EXPERIENCE**

## **WAYS TO STUDY**

**Our flexible provision means you can find a way to study that best suits you**

We have a proud history of supporting our students to achieve a degree whatever their circumstances.

### **Full-time and part-time courses**

For UK students, many of our full-time courses can also be studied part-time – same great professors, same relevant programme – just studying fewer modules at a time over a longer period than full-time study, to suit your life circumstances.

### **Online learning**

Wherever you are in the UK, or across the globe, our online courses give you access to an Edinburgh Napier degree and the opportunity to achieve an internationally-recognised qualification. All your learning will take place online but you'll still benefit from our supportive community. For full details go to: [napier.ac.uk/online](https://napier.ac.uk/online)

### **Associate Student Scheme**

Our Associate Student Scheme allows you to study for your Higher National Diploma (HND) at one of our partner colleges while guaranteeing you a place with us in the third year. This guarantee is offered on a number of degree courses across computing, business, engineering and the built environment. You'll feel like an Edinburgh Napier student even while you're at college, with access to all our facilities and resources.

### **Apprenticeships**

An apprenticeship is a great opportunity to undertake work-based learning that can boost your application to university or enhance your employability. Foundation Apprenticeships can be taken in S4 or S5 and will build your skills and bolster your application to university, while Modern Apprenticeships offer paid work opportunities so you can gain vital skills while studying for a qualification up to HND level. Both types offer progression opportunities into Graduate Apprenticeships of which we offer a range in business, computing and engineering subjects. Go to [napier.ac.uk/apprenticeships](https://napier.ac.uk/apprenticeships) for full details.

Head to [napier.ac.uk/UG-study](https://napier.ac.uk/UG-study) for more information on all of our ways to study.

---

## **STUDENT EXPERIENCE**

# **SCHOLARSHIPS AND BURSARIES**

## **We offer a range of scholarships, bursaries and funding to help you study with us**

Through a scholarship or a bursary award, you can receive a sum of money to support you while you study with us which you won't need to pay back.

Depending on the specific award's eligibility criteria, funding can support living costs, childcare expenses, tuition fees or a specific project that is beneficial to your academic and personal development. So, it is well worth checking out what financial assistance you might be eligible for.

### **Here's an idea of what financial support can do:**

- Cover the costs of course fees.
- Help with living costs.
- Enable travel, research or aid personal development.
- Help you take a passion further, such as sports or the arts.
- Support a start-up business dream.

### **Bursaries and scholarships explained**

A bursary will be given to you automatically if you meet certain criteria; for example, if you come from a low-income household. You don't need to apply for these bursaries, we will let you know if you are eligible when you confirm you will be starting your course with us.

To receive a scholarship, you may have to submit a separate application and the process can be competitive or distributed on a first-come first-served basis, so it's important to apply early.

There are special scholarships available to help with specific projects as part of your course, such as if you decide to study abroad, or do a research project locally. There are also elite athlete and country-specific scholarships available.

### **UK (from outside Scotland) and Republic of Ireland Students**

Students from England, Northern Ireland, Wales, the Channel Islands, the Isle of Man and the Republic of Ireland, are generally classified as Rest of UK/ROI for fees purposes, and are able to access specific support including:

#### **Access and Merit bursaries**

We provide a generous bursary package offering a cash award of up to £3,000 per year (dependent on your financial circumstances and/or your academic achievement).

#### **Final Year Fee Waiver**

The majority of undergraduate degrees in Scotland last four years (compared to three years elsewhere in the UK), providing greater breadth and opportunities within your course. When studying with us this means, for example, that there is usually the opportunity to undertake work-related experience as part of your course. All eligible students, on courses of four years or more in length, will automatically receive a final year fee waiver, which will save you an additional £9,250.

### **Access to other funding**

Our team of Student Funding advisers work to support all eligible students to apply for additional sources of funding, including Discretionary and Childcare funds, and can provide advice on how best to manage on a budget.

Head over to [napier.ac.uk/UG-funding](https://napier.ac.uk/UG-funding) to see exactly what you are eligible for and how to apply.

---

## INTERNATIONAL STUDENTS

### We are dedicated to advising and supporting you

For students joining us from across the globe, our International team is here to help. We know that moving to a different country to study is a big decision but we can support you every step of the way.

Our team is here to assist with pre-arrival information, orientation programmes, immigration and visa advice, English language classes, workshops to prepare you for studying here and loads more. We can even pick you up from Edinburgh airport to bring you to your campus.

With us you will join an international community of students from 150 countries, either learning on campus, online, or with one of our overseas partners.

### Internationally recognised

We are ranked 501 in the World University Rankings by Times Higher Education and have an overall score of 4.3 stars according to student reviews on Studyportals which rates study and living experience at universities from all over the world.

Studying at Edinburgh Napier you will gain an internationally-recognised qualification based on leading academic theory and professional know-how, so you'll be ready to make an impact wherever you base your career.

### Connect with us

Our International Team is based in Scotland and across our regional offices in Malaysia, India, China and Nigeria, so you can contact us here in Edinburgh or talk to someone who is closer to where you are.

We also have local representatives overseas who can provide information and advice. Head to our website to see if there is a representative working in a city close to you. Our staff also travel the world to attend educational events and there might be one happening near you soon. Find out when we're next in your country on our website.

For all the information you need, head to [napier.ac.uk/UG-international](https://napier.ac.uk/UG-international)

# ENSA - SPORTS AND SOCIETIES

## Make the most of your student experience

ENSA is Edinburgh Napier's Students' Association which works all year round to help you make the most of your student experience – from providing a whole host of fun extra-curricular activities to representing your interests through our campaigns – and we're also here to directly support you with any academic or personal issues.

### Join our community

ENSA offers a variety of sports clubs and student societies covering a broad range of activities, interests and hobbies. Bringing students together from across all of our campuses, being part of a club or society is a great way to meet new people with similar interests, make friends and feel part of our community.

### Pursue your interests

Societies offer lots of opportunities to have fun and throw yourself into new experiences. And we have a great range – from hiking and yoga to coffee and drama – but if you can't find what you're looking for, ENSA gives you the freedom to create your own!

### Get into sports

Getting involved with a sports club can be a really memorable part of your student experience. Lots of our clubs are open to complete beginners who just want to play for fun but if you want to take things more seriously, most of our clubs also play in inter-university competitions. Wednesday afternoons are typically dedicated to playing in leagues against other universities around the UK (BUCS).

### Make a difference

ENSA works to raise awareness of the issues affecting our student community and there are lots of ways to get involved, from taking part in our campaigns or joining one of ENSA's Student Forums, to being elected as a Programme Rep or even aiming for Student President! Through ENSA you can build relationships, drive improvements across the University, and make a real difference for the student community – skills which can also help to build your CV.

Want to see the full list of sports and societies that you could get involved with once you're here? Head to [napierstudents.com](http://napierstudents.com) to check out everything you need to know about the Students' Association.

---

# STUDY AREAS

## ACCOUNTING AND FINANCE

[napier.ac.uk/do-finance](http://napier.ac.uk/do-finance)

Our accounting courses are accredited by major UK accounting institutes, providing exemptions from many of their exams, so you'll be professionally qualified sooner than most. The employability of our Accounting graduates is very high, with 96% in professional or managerial jobs within six months of graduating (HESA 2017/18). We are also the only Scottish university to offer an undergraduate degree in Financial Services. We are a top 10 modern UK university for Accounting & Finance (Sunday Times Good University Guide 2022).

### YOUR LEARNING EXPERIENCE

You will learn from tutors with backgrounds in accountancy or financial services, giving you the benefit of their understanding of the business world. Our Financial Services programme offers a 24-week work placement in year three - an ideal way to gain insight into the industry and become work-ready. Our Bright Red Triangle business incubator offers you an opportunity to develop your entrepreneurial spirit - get your business idea off the ground through expert advice and mentoring.

### GRADUATE SPOTLIGHT

**Asim Ali**

#### READY FOR THE REAL WORLD

"My degree gave me the vital knowledge required to start my career as a trainee Chartered Accountant. My course was delivered by excellent teaching staff who were always willing to help. I joined the Accounting Professional Advisory Group as a student representative which developed my networking skills, enhanced my understanding of professional etiquette and boosted my confidence for venturing out into the real world."

### COURSES

#### BA (Hons) Accounting

Accounting goes far beyond totting up profit and loss. This accredited course will hone your financial and business acumen as well as your accounting skills. Get ready to cover accounting techniques and policies spanning everything from auditing and tax to management accounting and corporate governance. You can also study the same programme part-time to fit around your job.

#### BA (Hons) Accounting with Corporate Finance

Develop your accounting, finance and other business skills while focusing on the field of corporate finance. This accredited joint degree course examines accounting techniques and policies to do with corporate finance and also tax, auditing, corporate governance, management accounting, corporate reporting and statistics.

#### BA (Hons) Financial Services

At the heart of this course are banking, finance, pensions, insurance, investment, wealth and technology – topics that touch all of our lives. It is the only Honours degree course in Scotland to cover this essential area. With 40 credit exemptions from the CII qualification, this programme will position you well to develop a career managing, developing or selling the financial products we all use.

## **ACTING**

[napier.ac.uk/do-acting](https://napier.ac.uk/do-acting)

**We are a top 10 UK modern university for Drama, Dance & Cinematics and offer the only combined actor-training and English degree in the UK** (Complete University and Times/Sunday Times Guides 2021). **We are also ranked number one in the UK for Drama by students (NSS 2021).** We aim to deliver a unique learning experience that takes full advantage of our location in one of the most culturally vibrant cities in the world. Our curriculum develops versatility, intellectual curiosity, entrepreneurialism and leadership, as well as providing a high level of acting and performance training for both stage and screen.

### **YOUR LEARNING EXPERIENCE**

With us you'll learn from industry-recognised tutors and train in our dedicated rehearsal rooms, with access to a fully equipped studio theatre. Your learning experience will be unique in the UK with an opportunity to present a fully supported show at the world's largest arts festival, the Edinburgh Festival Fringe. Our close ties with leading Scottish theatre companies ensure your training is as diverse as it is contemporary. You'll graduate with a show reel and significant acting experience for both stage and screen.

### **GRADUATE SPOTLIGHT**

**Marli Siu**

#### **STAR PUPIL**

"You learn about acting, directing and writing and the variety of skills you develop is very useful. One of the best things about the Acting & English degree is the time and flexibility to explore different pathways within drama and find out what you're really passionate about."

Marli Siu was named a Screen International Star of Tomorrow in 2018 and was nominated for the prestigious Ian Charleson Award. Most recently she won 'Best Actress' at the 2021 Scottish BAFTA awards.

### **COURSES**

#### **BA (Hons) Acting & English**

You'll develop your acting skills to a professional standard, while exploring English literature, and gain a deep understanding of the relationship between text and performance.

#### **BA (Hons) Stage & Screen Acting (advanced entry)**

Ambition is everything and this inspiring degree provides contemporary vocational actor training, in a variety of styles, media and venues, with direct entry to Year 3.

## BIOLOGICAL SCIENCES

[napier.ac.uk/do-science](http://napier.ac.uk/do-science)

Our courses provide a solid foundation in the biological sciences building your understanding of key issues and allowing you to specialise if you wish to. All courses are taught in an applied way, developing the skills you need to be work-ready on graduation, and are accredited by the Royal Society of Biology, ensuring you gain the subject-specific knowledge employers are looking for.

### YOUR LEARNING EXPERIENCE

You will learn in a dynamic environment and be taught by lecturers who are pushing the boundaries of knowledge. Our purpose-built facilities feature the latest equipment, including a confocal

microscope and an Aqualab facility for marine research. Some courses include fieldwork experience in a range of different environments and all have a strong emphasis on development of practical skills. Our microplacement scheme offers internship opportunities to gain invaluable work experience.

## **COURSES**

### **BSc (Hons) Animal & Conservation Biology**

Gain hands-on experience and prepare for a career in wildlife conservation by exploring how animals adapt to their environment and interact with each other.

### **BSc (Hons) Applied Microbiology**

This course explores how micro-organisms are used in the production of drugs and food and decontamination of polluted environments, preparing you for employment in a wide range of occupations within microbiology and biotechnology.

### **BSc (Hons) Biological Sciences**

This course allows tailored learning so there will be some aspects that are similar to the other degree structures, but with greater flexibility for specialising in your chosen area.

### **BSc (Hons) Biomedical Science**

Develop your understanding of the scientific investigation of human health and disease and prepare for a career at the forefront of biomedical science.

### **BSc (Hons) Marine & Freshwater Biology**

This course focuses on the study of the fascinating diversity of aquatic life. Learn about marine and freshwater ecosystems, their characteristics, conservation and sustainable use.

## **STUDENT SPOTLIGHT**

### **Ying Lei**

“The lectures teach students how to think critically and study independently.”

## BUILDING & SURVEYING

[napier.ac.uk/do-building](http://napier.ac.uk/do-building)

Our Building and Surveying courses are industry-focused, allowing you to develop the skills needed for a successful career. Surveying courses are accredited by the Royal Institution of Chartered Surveyors (RICS) and the Architectural Technology course is accredited by both the Chartered Institute of Architectural Technologists (CIAT) and the Chartered Institute of Building (CIOB). **We are a top 10 UK modern university for Building** (Complete University Guide 2022).

## **YOUR LEARNING EXPERIENCE**

Our degrees are highly regarded within the industry and companies approach us to take on our graduates for immediate employment. Many of our students achieve placements with professional surveying firms, national and local building contractors and specialist consultancies. You'll be taught by staff who have worked in industry and hold RICS, CIAT or COIB membership, and will benefit from access to leading industry software. There are opportunities to take part in relevant fieldwork, and students on our surveying courses can take a credit-bearing work placement module in year three.

## **GRADUATE SPOTLIGHT**

### **Lisa Playfair**

"The knowledge and practical elements gained through my course are directly transferable to my current job where I work as an Assistant Site Manager at ISG."

## **COURSES**

### **BSc/BSc (Hons) Architectural Technology**

Based around the professional requirement for the Chartered Institute of Architectural Technologists (CIAT), this course is taught at one of only four institutions to be awarded Centre of Excellence by the CIAT. You'll gain an excellent level of understanding of building science, engineering and technology applied to architecture to form the link between design and realisation.

### **BSc/BSc (Hons) Building Surveying**

This course teaches you how to diagnose building faults, carry out inspections, and apply construction technology principles when advising on preventative or remedial solutions.

### **BSc/BSc (Hons) Real Estate Surveying**

Combining real estate surveying with valuation, planning and development, this course teaches you how the commercial property markets work by studying the valuation of land and buildings and appraisal of them for either development or investment purposes.

### **BSc/BSc (Hons) Quantity Surveying**

This course teaches you the skills needed in design economics, procurement methods, cost planning, life cycle costing, budget management and measurement and quantification of construction work.

## BUSINESS & MANAGEMENT

[napier.ac.uk/do-business](https://napier.ac.uk/do-business)

Edinburgh Napier is a top 10 UK modern university for Business, Management and Marketing (The Times/Sunday Times Good University Guide 2022 and The Complete University Guide 2022). Our courses are developed in line with employers' needs to ensure you have the applied knowledge to make you highly employable; for example, we've recently added data analysis learning into our Business Management course. With us you will gain the confidence to meet today's business needs and adapt to tomorrow's demands. 91% of graduates from our Business Management course are either working or in further study within fifteen months of graduating (HESA 2018/19).

## **YOUR LEARNING EXPERIENCE**

Studying any one of our business and management programmes will give you an excellent grounding for what's ahead. Our Business Management courses offer great flexibility and choice – you can choose a work placement, study abroad, or take specialist modules. International Business Management students spend the third year of their programme studying abroad. Bright Red Triangle, our business incubator, supports innovation and enterprise among students, staff and local businesses, so it's a great place to develop ideas and connections.

## **GRADUATE SPOTLIGHT**

### **Kristoffer Andersen**

"I wanted to go to a university that is focused on preparing students for an ever-changing job market. So, I decided on Edinburgh Napier University and the Business Management course. Plus, I love hiking in the mountains, so I chose Scotland because of the Highlands, and Edinburgh because it's a big city, while at the same time it is close to nature."

## **COURSES**

### **BA (Hons) Business Management**

Discover the skills you need to manage, develop and grow an organisation. This is our most popular course and explores organisational structures and strategies that businesses adopt to respond to the effects of key external drivers.

### **BA (Hons) Business Management with Entrepreneurship**

Explore a broad range of academic theory on business management and the latest applied thinking in entrepreneurship. This course sets you up for various careers with all sizes of employer – or to start your own venture.

### **BA (Hons) Business Management with Human Resource Management**

Are you a people person? Human Resource Management specialists add value to organisations by employing, engaging and developing people effectively. On this specialist route, you will build Human Resource Management skills on top of a broad base of business knowledge.

### **BA (Hons) Business Management with Marketing**

Develop broad business expertise plus strategic marketing skills on this course. You will also hone your creative side – innovation is key to being successful in business today. An industry placement lets you apply your knowledge.

### **BA (Hons) International Business Management**

Planning a career in international business? To succeed, you'll need a combination of general business skills and specialist knowledge of the global marketplace – which is exactly what this course offers.

### **BA Business & Enterprise**

Our Business & Enterprise course allows students to study for a Top-up degree, building on existing qualifications and experience. You only need to visit campus one day a month for a calendar year and all assessments are course work – there are no exams.

### **BA (Hons) Business & Enterprise in Sport**

This online course provides the flexibility to allow you to study while working at the top level of sport.

We also offer a **BA Business Management Global Online top-up course** which is particularly aimed at those who already have a broad business-related HND, associate degree or equivalent. As well as BA Business Management, there are also various specialisms: **BA Business Management with Human Resource Management; BA Business Management with Finance; BA Business Management with Hospitality; BA Business Management with Marketing; BA Business & Enterprise.**

Some courses are available for part-time study. Please check the course specific webpage.

### Access for all

Applicants that meet our Widening Access policy will be given an offer based on our minimum entry requirements. Please check your eligibility at [napier.ac.uk/UG-entry](http://napier.ac.uk/UG-entry)

### Coming from college

For specific HNC/HND entry requirements please check the course specific webpage. To find out more about coming from college visit [napier.ac.uk/UG-comingfromcollege](http://napier.ac.uk/UG-comingfromcollege)

### Coming from outside the UK?

To check your specific country's academic and English language entry requirements go to: [napier.ac.uk/your-country](http://napier.ac.uk/your-country)

## COMPUTING

[napier.ac.uk/do-computing](http://napier.ac.uk/do-computing)

Our diverse range of degree programmes are at the forefront of emerging and exciting industries and will equip you for professional roles that are in high demand across a wide variety of sectors. As the entertainment and information industries continue to digitise, our creative courses range across Sound Design to User Experience and Digital Media, while Informatics focuses on business, e-health and financial technology. The staff teaching our Cybersecurity and Networks courses are specialists in cybercrime and ground-breaking online security, and our Software Engineering and Technology courses give you the practical skills needed by industry and the freedom to pursue your own path.

**We are a top 10 UK modern university for Computer Science (The Times/Sunday Times Good University Guide 2022 and The Complete University Guide 2022)**

### YOUR LEARNING EXPERIENCE

You'll be taught by world leading scientists and professors who are industry experts and gain first-hand industry experience before you graduate: we pride ourselves on our one-year paid work placement and study abroad options. We have some of the most impressive computing lab facilities of any UK university, including a dedicated games development lab, specialist digital media and sound facilities alongside a range of platforms and technologies for cloud-based virtualisation and security environments. Our Sensorium is a high spec UX lab including eye tracking and facial expression analysis software.

**Our Cybersecurity and Forensics course is certified by the National Cyber Security Centre – the first undergraduate course in the UK to achieve this.**

### STUDENT SPOTLIGHT

**Maria Luque Anguita**

“By second year I had learned everything I needed to work in a professional environment and through this I gained my internship. I am very involved in university projects and this has given me the skills and confidence I need for a successful future.”

**COURSES****CREATIVE AND SOCIAL INFORMATICS****BSc (Hons) Animation for Games (Top Up)**

This degree offers an advanced entry route for FE College students interested in gaining the knowledge and skills required for a career in industry. Those with appropriate experience will also be considered. You will develop a portfolio of work, either in a specialist discipline or gain a wider, more generalised skill set.

**BSc/BSc (Hons) Digital Media & Interaction Design**

Lead the next wave of innovation in interactive applications and screen based media. This course equips you with the skills to break new ground in digital media and interaction design.

**BSc/BSc (Hons) Digital Media & Interaction Design Global**

This course has the same elements of Digital Media & Interaction Design but incorporates compulsory study abroad in year 3. It has been developed for the new media professional who wishes to work in a global industry.

**BSc (Hons) Informatics (Business) / (eHealth) / (FinTech)**

Learn how to design, develop and manage information technologies to support business needs and processes. You will take an exciting and dynamic blend of computing and management modules with options to specialise in order to pursue different career pathways.

**BSc (Hons) Sound Design**

Film, TV, gaming and theatre rely on special sound effects to bring stories to life. This course will teach you the technical knowledge and skills needed to succeed as a sound designer in these fields and more besides.

**BSc (Hons) User Experience (UX) Design**

This exciting new course allows you to develop a wide range of user experiences, such as a web project, a mobile application, a wearable device, or a smart, interactive space. Through your studies you will build a portfolio of work relevant to a broad range of UX jobs.

**BSc (Hons) Web Design & Development**

Creating an effective web presence calls for a growing range of skills. This comprehensive web applications and interaction design course explores web technologies, user experience, digital business environments and more.

**CYBERSECURITY AND NETWORKS****BEng (Hons) Computer Systems & Networks**

Gain the knowledge and skills required to design, develop and maintain networked hardware and software. This programme has a high employability focus and covers the broad area of computer systems.

### **BEng (Hons) Cybersecurity & Forensics**

Gain the know-how and practical skills to analyse and create effective and secure computer systems. Accredited by the National Cyber Security Centre, this course offers study abroad and industry placement options.

## **SOFTWARE ENGINEERING AND TECHNOLOGY**

### **BEng (Hons) Computing**

This course will help you gain a full understanding of computing tools, techniques and practices across a wide range of application areas. With 100% student satisfaction (NSS 2020), it will allow you to develop the appropriate skills for a rewarding career.

### **BSc (Hons) Computer Science / Computer Science (Artificial Intelligence)**

In this course you will gain skills in artificial intelligence, mathematics, database systems, computer systems and software engineering. You will be taught by staff who are internationally recognised in fields such as artificial immune systems, evolutionary algorithms and optimisation.

### **BSc (Hons) Data Science**

Master the fundamentals of this rapidly expanding discipline and gain both theory and practical expertise. The course provides a solid grounding in coding, statistics and foundation computing, data engineering and analysis, plus skills in artificial intelligence and machine learning.

### **BSc (Hons) Games Development**

Passionate about writing code and creating virtual worlds? Designed to meet the needs of the gaming industry, this course is accredited by ScreenSkills.

### **BEng (Hons)/MEng Software Engineering**

Study the fundamentals of software engineering to prepare for a successful career in the IT industry. This course gives you skills in various software applications used in different organisational settings.

## **CAREERS**

Yes = Entry into a later year is possible; please check the relevant course specific webpage for full details.

#### Access for all

Applicants that meet our Widening Access policy will be given an offer based on our minimum entry requirements. Please check your eligibility at [napier.ac.uk/UG-entry](http://napier.ac.uk/UG-entry)

#### Coming from college

For specific HNC/HND entry requirements please check the course specific webpage. To find out more about coming from college visit [napier.ac.uk/UG-comingfromcollege](http://napier.ac.uk/UG-comingfromcollege)

#### Coming from outside the UK?

To check your specific country's academic and English language entry requirements go to: [napier.ac.uk/your-country](http://napier.ac.uk/your-country)

## CRIMINOLOGY, PSYCHOLOGY & SOCIOLOGY

[napier.ac.uk/do-soc](http://napier.ac.uk/do-soc)

Study in a multidisciplinary school where our programmes are informed by staff's active research in the fields of criminology, social sciences and psychology, across areas such as cognitive, work, social, and forensic psychology; gender and migration; policing, imprisonment and restorative justice. You'll develop a range of practical, intellectual and transferable skills, including psychological or social research methods, group working, communication, critical thinking and problem solving. We have excellent satisfaction rates for our programmes, as rated by the National Student Survey, and are a **top 10 UK modern university for Criminology and Sociology** (The Times/Sunday Times Good University Guide 2022 and The Complete University Guide 2022).

### **YOUR LEARNING EXPERIENCE**

We offer access to dedicated psychology lab facilities and equipment, including an eye tracking lab, an EEG lab, and a 4D motion capture lab. All of our courses offer the opportunity to join the Microplacements work shadowing scheme that pairs students with relevant placements. Our Policing & Criminology course provides the chance to get involved with the Special Constabulary. Students on our Criminology and Social Sciences programmes may attend an International Summer school with institutions in the USA.

### **STUDENT SPOTLIGHT**

#### **Tabitha James**

"I'm really enjoying the Psychology course at Edinburgh Napier University because a range of interesting topics, including forensic and educational psychology, are covered. It is a friendly environment – the lecturers are always happy to help you – and I would recommend studying here to anyone looking to be part of a close-knit supportive learning community."

### **COURSES**

#### **BA (Hons) Criminology**

As an interdisciplinary social science subject, criminology draws on a variety of perspectives including sociology, psychology and law. You'll study crime, why it happens and how society reacts to it.

#### **BSc (Hons) Policing & Criminology**

Explore the wide range of social, political and economic factors which impact on policing and crime, and gain the knowledge and skills to become a reflective police officer or to take on a broader criminal justice role.

#### **BA (Hons) or BSc (Hons) Psychology**

Psychology explores individuals and their unique behaviours. You'll learn about memory, language, creativity, personality, social interaction and the brain, and graduate accredited by the British Psychological Society. **We are a top 25 UK modern university for Psychology (Sunday Times Good University Guide 2022).**

#### **BA (Hons) Psychology with Sociology**

This British Psychological Society accredited course combines psychology with sociology to examine and investigate human life and experiences, and develop a detailed understanding of the social world, the complexities of human relationships and social forces.

#### **BA (Hons) Social Sciences**

This course gives you an insight into many different aspects of our lives as individuals and as part of society. You'll have the opportunity to study across social science disciplines including geography, history, politics and sociology with options for criminology and psychology.

## DESIGN & PHOTOGRAPHY

[napier.ac.uk/do-design](https://napier.ac.uk/do-design)

Our programmes are at the leading edge of creativity while our excellent industry contacts ensure your learning is as contemporary as it is relevant. You will benefit from multi-disciplinary academic staff and industry-based practitioners who will help you develop the professional knowledge and critical thinking skills you need to succeed. Our connections with many of the UK's best design agencies and professional photographers mean you'll be work-ready when you graduate. **We're the top UK university for Film Production & Photography** (The Guardian University Guide 2022) and a **top 10 UK modern university for Art & Design** (The Times/Sunday Times Good University Guide 2022 and NSS 2021).

### YOUR LEARNING EXPERIENCE

Our courses are supported by designated studio spaces, workshops and a specialist photography facility, as well as excellent computing facilities with industry-standard software. We offer opportunities to gain experience on live projects with clients like the National Museum of Scotland and you'll benefit from partnerships, placement and mentoring opportunities through our alumni and industry networks.

### GRADUATE SPOTLIGHT

#### Alexandra Groza

"It was through interviewing designers and exhibitors during my time at Harper's Bazaar that I realised that interior design was what I wanted to do. I had always wanted to study overseas and after completing a course and undertaking some smaller freelance work back home, I applied for Edinburgh Napier – and here I am!"

Alexandra Groza, Interior and Spatial Design 2018 graduate, won the top student award at Interior Educators @ Free Range in London and is now working as a Senior Designer at Amplify design agency, London.

## **COURSES**

### **BDes (Hons) Graphic Design**

Join award-winning students learning to shape and challenge the world around them through graphic design, gaining practical work experience supported by our network of industry partners along the way.

### **BDes (Hons) Interior & Spatial Design**

Industry leading professionals direct the learning in our collaborative, practical studio space. Focusing primarily in the interior, but also public spaces, lighting and exhibition design, we create and enrich places at the human scale.

### **BDes (Hons) Product Design**

Learn how to design innovative, attractive and usable products and explore the dynamic world of product design while gaining vital industry experience.

### **BA (Hons) Photography**

Start your journey as a contemporary, creative and intelligent photographer and gain experience in a vast range of photographic practices.

## ENGINEERING

[napier.ac.uk/do-engineering](http://napier.ac.uk/do-engineering)

Strong industry links ensure our programmes are highly relevant and up to date, providing professional insight and crucial knowledge for success. Our courses are fully accredited by organisations such as the Institution of Civil Engineers, Institution of Structural Engineers, Chartered Institution of Highways and Transportation, Institute of Highway Engineers, Institution of Engineering and Technology, Engineering Council and the Energy Institute. We are a **top 10 UK modern university for Civil Engineering** (The Times/Sunday Times Good University Guide 2022) and **Electrical and Electronic Engineering** (The Complete University Guide 2022).

## **YOUR LEARNING EXPERIENCE**

You will have access to our wide range of specialist labs and the use of leading, industry-relevant equipment, such as our Robotics and Automated Manufacturing lab which contains a Flexible Manufacturing System (FMS) to study and design an automated production line. Work placements are an intrinsic part of every course and there are opportunities to take part in activities such as the Civil Engineering week which is held overseas.

## **STUDENT SPOTLIGHT**

### **Sophie Pugh**

"I always had an interest in engineering from a young age and even though I was told I wasn't very good at maths and that I should consider a different path, I didn't let that stop me. I continued to pursue my ambition and I am now in my third year studying Civil Engineering and absolutely enjoy my course."

## **COURSES**

### **BEng (Hons) Civil Engineering**

Gain comprehensive knowledge of Civil Engineering covering structural, geotechnics, transportation, hydraulics, water and environmental engineering. You will focus on Civil Engineering practice and design as well as applying your mathematical and IT skills to solving engineering problems. The course is fully accredited and provides the educational basis for Incorporated Engineer (IEng) status.

### **MEng Civil Engineering**

This course is the same as the BEng course in years 1 to 4. You then specialise in your chosen field for advanced study in Structural and Geotechnical Engineering in year 5. The course is fully accredited and provides the educational basis for Chartered Engineer (CEng) status.

### **MEng Civil & Transportation Engineering**

This course is the same as the BEng Civil Engineering in years 1 to 4. You then specialise in advanced study in Transport Planning and Engineering in year 5. The course is fully accredited and provides the educational basis for Chartered Engineer (CEng) status.

### **BEng (Hons) Energy & Environmental Engineering**

You'll focus on engineering practices, computing skills and principles of design relating to a wide range of energy systems. Through it you will gain an understanding of the operation and specification of renewable energy systems and consider the use and impact of appropriate materials and methods of manufacture. The course also covers building services design for zero emissions.

### **BEng (Hons) Electrical & Electronic Engineering**

You'll study electronic and electrical engineering and focus on the application of these skills to real-world engineering situations. As part of your studies you will analyse engineering systems, designs, processes and products and will use computer-aided engineering and design techniques.

### **MEng Electrical & Electronic Engineering**

This course is the same as the BEng course in years 1 to 4. You then specialise in your chosen field for advanced study in year 5.

### **BEng (Hons) Mechanical Engineering**

You'll learn to integrate your knowledge of mathematics, science, information technology, design and management and apply it to solve increasingly complex engineering problems. This course will also help you develop your skills in innovative thinking.

### **MEng Mechanical Engineering**

This course is the same as the BEng course in years 1 to 4. It involves advanced study in areas such as computer-aided engineering and environmental sustainability.

### **CAREERS**

## ENGLISH

[napier.ac.uk/do-english](https://napier.ac.uk/do-english)

**We're a UK top 10 modern university for English** (The Times/Sunday Times Good University Guide 2022 and The Complete University Guide 2022) with 100% student satisfaction in the programme (NSS 2021). Our courses build an understanding of the way literature and film foster better engagement with the modern world. You'll learn about important authors, periods and texts and gain valuable critical thinking skills that will prepare you for careers in a range of cultural and

creative industries. You will study topics from canonical literature to contemporary film, from experimental works to popular culture, with opportunities to take options in creative writing, TV studies and much more.

### **YOUR LEARNING EXPERIENCE**

You'll learn in a variety of dynamic and engaging forms on our programmes – we have a wide range of assessments alongside traditional essays including blog writing, video essays and more. Our teaching placement scheme offers the opportunity to gain classroom experience, and there is the chance on a final year module on Crime in Text and Film to participate in an award-winning partnership with the Scottish Prison Service to enhance literacy. Study abroad schemes enable you to study at universities in Toronto and across the USA.

### **GRADUATE SPOTLIGHT**

#### **Andrew Barr**

"My studies in Scottish literature in particular grounded me in the knowledge I needed to understand political events as they were unfolding across the country."

Andrew Barr graduated from the BA (Hons) English & Film course in 2014. He has since published three books on Scottish history and culture, most recently an *Atlas of Scotland* (2021), which he also illustrated.

### **COURSES**

#### **BA (HONS) ENGLISH**

Focusing on modern literature and culture, you'll discover how classic and unfamiliar texts changed ways of thinking in their own time, and how they continue to shape our view of the world.

#### **BA (HONS) ENGLISH & FILM**

Exploring literature alongside film and television, you'll gain an awareness of critical and theoretical perspectives on contemporary literary and visual culture.

## FILM, JOURNALISM & MEDIA

[napier.ac.uk/do-media](http://napier.ac.uk/do-media)

**We are the top UK modern university for Film Production and Photography, Media and Film Studies, and Journalism, Publishing and Public Relations** (The Guardian University Guide 2022). We will prepare you for a career in the film, media and creative sectors in Scotland, and around the world, through our industry-relevant courses which provide both in-depth knowledge and hands-on experience. You'll gain all the technical and creative skills and practices you need to get ahead.

### YOUR LEARNING EXPERIENCE

Our courses give you access to specialist facilities with industry-standard equipment, including everything from professional level radio and TV studios to editing suites and Mac laboratories. We'll ensure you have the right tools at your disposal to put your creative thinking into action. Through our wide network of industry contacts we can help you to find placements in your chosen field and work on live briefs with a range of creative media partners.

### GRADUATE SPOTLIGHT

#### Eric Romero

"The highlight of my time at Edinburgh Napier University was the excitement of being surrounded by other people with the same ambitions and having the support of lecturers who put their trust in me."

BA Television student Eric Romero's award-winning graduation film, *Lethe*, has toured international film festivals. Since graduating, Eric's gone on to work as a script-writer in Spain while developing a new drama production back in Scotland.

### COURSES

### **BA (Hons) Film**

Study the art and craft of cinema and gain the practical and creative skills in our specialist facilities to become a contemporary filmmaker.

### **BA (Hons) Journalism**

Gain industry-relevant training that prepares you for a media career on one of the UK's longest running and respected journalism courses.

### **BA (Hons) Mass Communications**

Prepare for employment or postgraduate study in disciplines such as mass communications, advertising, public relations, marketing, journalism, media and digital communication, with this new professionally recognised and accredited course. Choose from two exit routes after year 2: BA (Hons) Mass Communications or BA (Hons) Mass Communications, Advertising & Public Relations (also available as advanced entry).

### **BA (Hons) Television (advanced entry)**

Build on your existing creative skills and focus on a career in the television and screen media industries.

## LAW

[napier.ac.uk/do-law](https://napier.ac.uk/do-law)

**Our graduates are employed at some of Scotland's leading law firms and organisations including the Crown Office and Procurator Fiscal Service.** A Scots law degree is not only the first step towards qualifying as a solicitor in Scotland but is also an excellent springboard to many other careers. Our courses are accredited by the Law Society of Scotland and provide a broad foundation in the law of Scotland, enabling you to seek qualification as a solicitor in Scotland or pursue other options. We are a **top 10 UK modern university for Law** (The Times/Sunday Times Good University Guide 2022, The Complete University Guide 2022 and The Guardian Guide 2022).

### YOUR LEARNING EXPERIENCE

The lecturers within our small and friendly department have a wide range of experience, and the majority of them have practised law as a solicitor or advocate. Our law clinic - an entirely student-run organisation - provides free legal advice to the public and is supported by Anderson Strathern and accredited by the Faculty of Advocates Free Legal Services Unit. It provides opportunities to advise real clients.

### STUDENT SPOTLIGHT

#### Chris Enderby

"We have a great community feel on the Law degrees at Edinburgh Napier University and there is a Student Law Society. The staff are extremely supportive, they always check in with you. We even got support in CV writing, which was great. I love Edinburgh, so Edinburgh Napier University was an obvious choice when making my decision on where to study. The campuses are great and have good facilities."

## **COURSES**

### **LLB (Hons)**

This course gives you a broad foundation in the law of Scotland and enables you to take a range of law and non-law options. Over the course of the first three years, you'll study all of the subjects required by the Law Society of Scotland to enable you to seek qualification as a solicitor. If you proceed to the fourth year, you will be able to explore an area in depth by undertaking a major research project (dissertation) and four options.

### **LLB Graduate Entry**

This accelerated course leading to an Ordinary degree gives you a broad foundation in the law of Scotland. Over the course of two years, you'll study all of the subjects required by the Law Society of Scotland to enable you to seek qualification as a solicitor. In the second year you will also take two option modules in subjects such as Law and Society, Employment Law and Intellectual Property.

Completion of the LLB (Ordinary or Honours) is stage one of qualifying as a solicitor in Scotland.

Stage two is the Diploma in Legal Practice (DLP also known as Professional Education and Training Stage 1 or PEAT 1) currently offered by six universities in Scotland.

Places on the DLP are allocated according to marks achieved in compulsory modules, taken in years 1-3 of our LLB. The DLP is a vocationally orientated course designed to prepare students for Stage 3 (PEAT 2, also known as the traineeship).

Please remember that law is a very competitive profession and completion of the DLP is no guarantee of a traineeship. Many law students choose not to enter the legal profession but use their LLB as a stepping-stone into other careers such as those within business, banking, finance or the Civil Service.

## MARKETING

[napier.ac.uk/do-marketing](https://napier.ac.uk/do-marketing)

Our dynamic curriculum means your learning is up to date, while our strong ties to industry give you access to people currently working in the field. You'll explore different aspects of marketing - from digital media to brand management and international marketing - and gain the business and creative skills you need for a career in this exciting sector. Our Marketing with Digital Media course puts theory into practice by combining marketing theory with sophisticated digital media and IT skills. We are a **top 10 UK modern university for Business, Management and Marketing** (The Times/Sunday Times Good University Guide 2022) and Business and Management (The Complete University Guide 2022) and our courses are accredited by the Institute of Data and Marketing (IDM).

### YOUR LEARNING EXPERIENCE

Our industry-experienced, research-led staff work with our computing colleagues to ensure you are being taught by the experts for the digital media side of your course. In addition, you'll benefit from guest speakers from a diverse range of industry sectors. Placements are a vital part of our courses and you'll have the opportunity to undertake a six-month work placement during trimester two of your third year, as well as opportunities to study abroad.

### STUDENT SPOTLIGHT

#### Eilidh Muir

"I would highly recommend this course which combines professional and academic experiences. As a dyslexic student I found the innovative assessments one of the greatest advantages, as many of them are centred around more practical formats, such as reports and video submissions. And these practical skills are important for a placement or the live project option in your penultimate year."

## COURSES

### BA (Hons) Marketing Management

In this course you'll gain knowledge of both general marketing principles and specialist areas such as international marketing and marketing communications. You'll also study cutting edge developments in the marketing industry including digital and social media.

### BA (Hons) Marketing with Digital Media

This degree blends together theory and digital marketing practice. You'll gain an excellent understanding of both marketing principles and digital media skills including specialist areas such as user experience.

In both courses you'll have the opportunity to apply your skills to real-world projects through a supervised six-month work placement.

We also have a **BA Sales Management Online top-up** course aimed at those who wish to develop their knowledge of marketing theory and practice to help progress their marketing management career.

## MUSIC

[napier.ac.uk/do-music](https://napier.ac.uk/do-music)

**We're the top modern UK university for Music** (The Times/Sunday Times Good University Guide 2022, The Complete University Guide 2022, and The Guardian Guide 2022) and a top five UK university for Music with 100% student satisfaction in the programme (NSS 2021). Choose your pathway through performance, composition, production, research and the wider music industry, and tailor your degree to your interests and aspirations. You'll learn from lecturers who are practising performers, composers, conductors, music therapists, musicologists, sound engineers and songwriters. Our students have gone on to perform all over the world with bands like Mogwai and to manage groups like Idlewild.

### YOUR LEARNING EXPERIENCE

Our innovative, practical teaching will give you critical insight into the music industries and you'll benefit from our outstanding facilities, high-quality recording studios and 24/7 access to practice rooms. Our fully networked music lab runs a range of industry-relevant software including Logic, Pro Tools, Ableton and Sibelius. We're one of the few music departments in the UK to offer an undergraduate module in Music Therapy and our relationship with the Eric Liddell Centre provides unique opportunities to gain practical experience in this field.

### GRADUATE SPOTLIGHT

#### Anna Meredith

"As someone who came to writing music pretty late, my time at Edinburgh Napier gave me my first chance to really explore composition with some great tuition and performance opportunities."

In 2016 her debut solo album gained widespread critical acclaim and won Scottish Album of the Year. She opened the prestigious Edinburgh International Festival and the BBC's First Night of the Proms in 2018. Anna was awarded an MBE for services to music in 2019 and was shortlisted for the Mercury Prize 2020.

### COURSES

**BA (Hons) Music**

Embrace a variety of musical styles and genres on this unique course which will allow you to follow a pathway that reflects your specialist interests, be that in performance, composition, production, or in areas such as education, management and research. This programme combines our existing internationally recognised BMus (Hons) Music with our BA (Hons) Popular Music courses and is designed to ensure you have the skills vital for success in the music industries.

## **NURSING & MIDWIFERY**

[napier.ac.uk/do-nursing](http://napier.ac.uk/do-nursing)

**In Scotland, we are the largest provider of nursing and midwifery education and the only provider of all four fields of nursing** (Adult, Child, Learning Disabilities, Mental Health) and the top UK modern university for Nursing (The Times/Sunday Times Good University Guide 2022). We're also ranked the number one in the UK for Children's Nursing and in the top 5 for Adult Nursing (NSS 2021).. Our School of Health & Social Care provides a vibrant teaching environment for over 2,500 students, delivering a unique learning experience which ensures you gain the skills and qualifications needed to become a Nursing and Midwifery Council registrant when you graduate. 100% of our nursing and midwifery students are in work or further study within 15 months of graduating (HESA graduate Outcomes Survey 2017/18).

### **YOUR LEARNING EXPERIENCE**

You'll learn in some of the best teaching facilities in the country, including our purpose-built Simulation and Clinical Skills Centre which is run by a specialist team of nurses, doctors and midwives, and covers several practice areas - from community and critical care to general and labour wards. These facilities will help you gain experience relevant to all employers. Our links with local healthcare providers can provide placements where you can put theory into practice in the real world.

### **GRADUATE SPOTLIGHT**

#### **Fizza Hussain**

"I think it's an honour to be in a situation with someone and be trusted when they're at their most vulnerable and they turn to you for help. It's a pleasure but it's also an honour to be able to do that, and it's something that I carry with me every day."

Fizza Hussain, Bachelor of Nursing (Adult) graduate, 2018.

### **COURSES**

#### **BN Nursing (Adult)**

Gain the professional knowledge and understanding to progress in a career at the forefront of adult nursing.

#### **BN Nursing (Child)**

Learn to be confident and competent in the care of children and young people requiring healthcare interventions through an exciting, challenging and stimulating programme.

#### **BN Nursing (Learning Disabilities)**

This programme will give you the knowledge, skills and confidence to improve the health and quality of life of people with learning disabilities through evidence-based nursing care.

#### **BN Nursing (Mental Health)**

Explore the rewarding and complex study of mental health and develop the skills required to practice nursing in a compassionate and recovery-focused way.

### **BM Midwifery**

Explore all aspects of childbearing and gain the knowledge and practical skills required to register with the Nursing and Midwifery Council as a midwife.

### **POST-QUALIFICATION COURSES**

#### **BSc Nursing Studies**

This programme gives you a flexible opportunity to build on your current nursing qualifications and top up to degree level.

### **FINANCIAL SUPPORT**

All eligible (Scottish domiciled) student nurses and midwives studying in Scotland can benefit from an annual bursary of £10,000 to help cover accommodation and living expenses.

## **SPORT & EXERCISE SCIENCE**

[napier.ac.uk/do-sport](http://napier.ac.uk/do-sport)

Whether you want to help sufferers of long-term illnesses keep moving or train elite athletes, we have courses to suit anyone passionate about the subject. Our exclusive partnerships with elite sport organisations, such as the Scottish Rugby Union (SRU) and Scottish Gymnastics, means that what you learn in the classroom – from lecturers who are also coaches – will always be at the cutting edge of sports science. Our specialist facilities will ensure you gain the knowledge and skills to make an impact.

### **YOUR LEARNING EXPERIENCE**

You'll use our specialist, high-tech labs from year one, including our environmental chamber - the largest facility of its kind in Scotland which can replicate high-altitude conditions up to the equivalent of Everest Base Camp. Partnerships with Scottish Association for Mental Health (SAMH) and Macmillan for example, will give a focus on improving lives. There are volunteering and work-based learning opportunities at each level and through these you can test your knowledge and experience in a real working environment.

### **GRADUATE SPOTLIGHT**

#### **Alessandro Feri**

"The practical nature of the course is really important because you're encouraged to go away and learn how to apply the equipment to different athletes; that element of it really prepares you for the applied environment that most sports science jobs are in."

### **COURSES**

#### **BSc (Hons) Physical Activity & Health**

This course – endorsed by CIMPSA as it meets employer-set professional standards – offers you a multidisciplinary approach that gives you the tools to help others improve their lives through exercise, including alleviating disease and long-term illness.

#### **BSc (Hons) Sports Coaching**

This course will help you achieve your own potential as a modern, professional coach with knowledge of how sports science improves athletic performance.

#### **BSc (Hons) Sport & Exercise Science (Including advanced entry)**

Apply the latest scientific findings to sport to make athletes better, faster and stronger. This course explores how you can use physiology, psychology and biomechanics to help athletes perform to their full potential.

#### **BSc (Hons) Football Coaching, Performance & Development**

This course is the first of its kind in Scotland and has been designed in collaboration with the Scottish Football Association. Become a degree qualified coach in the many different facets of football and

graduate with the UEFA C, Scottish FA Children's Licence, UEFA B and UEFA Youth B licence diplomas.

### **BA (Hons) Business & Enterprise in Sport**

This online course for professional athletes and support staff will teach you to translate your athletic excellence into a successful business, while working around your training and competition schedule.

To check your specific country's academic and English language entry requirements go to: [napier.ac.uk/your-country](http://napier.ac.uk/your-country)

## TOURISM, HOSPITALITY, FESTIVAL & EVENTS MANAGEMENT

Where better to study tourism, hospitality, festivals and events management than in a world-renowned visitor destination and globally famous Festival City? And at Edinburgh Napier you will also be learning at a **top 10 UK modern university in Hospitality, Leisure, Recreation and Tourism** (The Times/Sunday Times Good University Guide 2022) and a top 15 UK university for Tourism, Transport, Travel and Heritage Studies (The Complete University Guide 2022). Studying with us you will benefit from industry-informed teaching and a wealth of experts who we partner with. Our visiting professors include leaders in tourism and hospitality and Directors from all the key Edinburgh Festivals.

### **YOUR LEARNING EXPERIENCE**

Enjoy excellent facilities, learn from leading professionals and expert academics, and gain real-world experience with flourishing tourism and hospitality businesses and long-established festivals and events. Through our courses you will develop leadership, creativity and management practice skills which will help you to succeed in this dynamic, varied and exciting sector. We offer an optional 24-week work placement on most programmes and there are opportunities to study abroad through international exchanges. We also offer live projects with local organisations in all three subject areas.

### **GRADUATE SPOTLIGHT**

#### **Ciara O'Donnell**

"I decided to come for a visit and see Edinburgh for the first time. I went out to the Craiglockhart Campus to meet with my future Programme Leader and he spent an hour chatting to me about the course and the University. That's when I knew I wanted to be an Edinburgh Napier student!"

### **COURSES**

#### **Ba (Hons) International Tourism Management**

This course covers the broad and diverse aspects of international tourism management, from impacts and sustainable development to destination and visitor attraction management. It will equip you with the knowledge and practical experience you need to prepare for a career in tourism management.

You can also study this course as follows:

#### **BA (Hons) International Tourism & Airline Management**

#### **BA (Hons) International Hospitality Management**

Develop your skills in the design, delivery and management of food, beverage and accommodation to top industry standards.

You can also study this course as follows:

#### **BA (Hons) International Hospitality Management & Tourism**

#### **BA (Hons) International Hospitality Management and Festival & Events**

#### **BA (Hons) International Hospitality Management & Marketing (advanced entry)**

#### **BA (Hons) International Festival & Event Management**

You will learn how to plan, design, market, operate and develop events, as well as how these events can be used to help local economies and communities. The programme is built around compulsory modules in festival and event management. Optional module choices can be drawn from a range of subjects offering a mixed approach, or focused on a complementary field such as marketing or tourism.

---

## APPLYING TO US

### WHAT YOU NEED TO KNOW

**What do I need to apply for the course I want to study?**

You'll need qualifications, a personal statement and a reference. For some specific courses you may also need to:

- come to an interview or audition;
- submit an art/design portfolio;
- provide evidence of relevant work or voluntary experience when applying for vocational courses such as Nursing or Veterinary Nursing.

If English is not your first language, you will normally need to provide evidence of your English language skills through qualifications or a Secure English Language Test.

We call these our entry requirements.

Students from the UK and European Union should apply by the application deadline of 25 January 2023 as applications made after this date cannot always be considered. International applicants should apply by 30 June.

**What qualifications and grades do I need?**

The qualifications or grades you need will vary by course and may also depend on whether you are a widening access student. In this prospectus we list our Year 1 Scottish Higher entry requirements in two ways – our standard and our minimum entry requirements. Both reflect the grades you will need to achieve by the time you enter the University, however, the minimum entry requirements only apply if you are a widening access student.

**Example:****BA (Hons) Accounting****Year 1 Standard Entry Requirement:**

BBBB including National 5 Maths and English at Grade C

**Year 1 Minimum Entry Requirement:**

BBCC including National 5 English at Grade C

We also list any specific subjects you must have studied by the time you enter the University to be considered for entry to the programme.

If you have already achieved the entry requirements which apply to you, you may receive an unconditional offer from the University. This means the place is yours if you want it, although there may be other steps you need to complete, such as a Protecting Vulnerable Groups (PVG) check or medical requirements, depending on the course you have applied to. Alternatively, if you need to achieve further qualifications to meet the entry requirements you may receive a conditional offer from the University. These conditions will be the academic qualifications you need to achieve in your current studies to get your place confirmed.

You should also remember that:

- Only Higher Grade C passes or above are counted towards your Higher tally. For Advanced Highers only Grade D or above is counted;
- Where you have achieved an Advanced Higher at Grade D this equates to a B-pass at Higher. An Advanced Higher Grade C or above equates to an A-pass at Higher;
- Unless you are a widening access student, where you apply with both a Higher and Advanced Higher in the same subject, we will only count the subject once, and will use the highest grade (or equivalent grade) achieved when reaching our decision. For widening access applicants we will count all Higher and Advanced Higher grades when calculating a student's achievement, even where these are in the same subject, however, you must have achieved the required grades in a minimum of three different subjects at Higher (or equivalent) in order to qualify for entry;
- The majority of our courses also allow entry directly into year 2 or 3 of study with a relevant HNC or HND qualification. Our course webpages will tell you which qualifications are accepted and any specific grades you are required to achieve within your HNC/D qualification.

**Am I a widening access student?**

We aim to identify each applicant's full talent and potential, and we look beyond grades to do this as part of our commitment to addressing the current under-representation of certain groups (widening access students) within higher education in Scotland.

We consider you to be a widening access student if you:

- have spent time in care;
- are a young carer: young adult carers are people aged 16–25 who care, unpaid, for a family member or friend with an illness or disability, mental health condition or an addiction;
- have taken part in the Lothian Equal Access Programme for Schools (LEAPS) and been identified as LEAPS-eligible;
- have completed a Scottish Wider Access Programme (SWAP);
- are an eligible student within the Schools for Higher Education Programme;
- have Government recognised refugee or asylum status;

- live in a target postcode area which identifies you as living in an area of high deprivation (most deprived 20% in Scotland) as defined by the Scottish Index of Multiple Deprivation. Go to [simd.scot/#/2020](https://simd.scot/#/2020) and enter your postcode to see whether you live in a target postcode area.

If you meet one of the above criteria, the entry requirements which apply to you are our minimum entry requirements which reflect the minimum academic grades required to succeed on your chosen programme of study.

## HOW TO APPLY

### Full-time courses

Applying for our full-time undergraduate courses is done through the Universities and Colleges Admissions Services (UCAS) website ([www.ucas.com](https://www.ucas.com)). You should use the Edinburgh Napier institution code – ENAP E59 – along with the code of the course you'd like to study.

### Part-time courses and online courses

Are you a UK student and want to study part-time? Or online? To do this, you'll have to go through our website. Just visit the page of your chosen course and hit the 'apply' button.

Got questions you're not sure about? Our friendly Admissions team are happy to take you through everything you need to know, either via email or on the phone. Get in touch by:

Phone: +44 (0)330 900 6040

Email: [ugadmissions@napier.ac.uk](mailto:ugadmissions@napier.ac.uk)

If you are applying from outside the UK, our International team is here to support and guide you through the process.

Email: [international@napier.ac.uk](mailto:international@napier.ac.uk)

## HOW TO APPLY (flowchart)

- Apply for September 2023. Applications close 25 January 2023, or 30 June 2023 for international students. UCAS will forward your application on to us.
- We will review your qualifications, personal statement and supporting references. Our Admissions policies, which you can find online, provide advice about how we select. [napier.ac.uk/UG-applicationadvice](https://napier.ac.uk/UG-applicationadvice)
- **You will receive a response with either an unconditional offer, a conditional offer, or informing you that unfortunately your application has been unsuccessful.** We make offers from November through to the end of April.

- Remember, even if you don't get the grades you need for your first-choice course, Clearing may be an opportunity to find a spot on a similar course. Head to [napier.ac.uk/clearing](http://napier.ac.uk/clearing)
- If you receive an offer you will have the opportunity to visit us on campus to learn more about our academics, students and facilities, and get all the information you need to make your decision on our offer. Or if you're overseas, you can talk to our International Team either in your country or online.

Now would be the time to **make Edinburgh Napier your first choice**.

- If your offer is conditional, we will confirm your place when your outstanding qualifications are known.
  - You will be sent information about your timetable and induction in August before commencing your studies in September.
- 

## ALTERNATIVE QUALIFICATIONS

In addition to the qualifications listed in the Study Areas section, we pride ourselves on accepting a wide range of alternative qualifications, including: Approved access courses, Irish Leaving Certificate, International Baccalaureate and Foundation Apprenticeships. To find entry requirements applicable to you, please check our website.

### HNC/HND

A large number of our students choose to go to college and study a range of qualifications before joining us. If you choose to study an HNC or HND qualification and are looking to study the same or similar subject with us, you will generally be able to articulate directly onto your chosen degree programme and be eligible to start in year 2 or year 3. For full details on what HNC/D courses articulate onto our degrees, the grades needed, and all the excellent support we have available, please see our website: [napier.ac.uk/UG-comingfromcollege](http://napier.ac.uk/UG-comingfromcollege)

### Associate Students

The Associate Student Scheme allows you to study for your HND at one of our partner Colleges while guaranteeing your place at Edinburgh Napier University in third year (conditions apply). As an Associate Student of Edinburgh Napier you have a personal guarantee of a place with us on a number of degree programmes within our Schools of Computing, Engineering & the Built Environment, and Business.

In the School of Computing our partners are Borders College, Edinburgh College, Fife College, Forth Valley College, Dundee & Angus College and West Lothian College. In the School of Engineering & the Built Environment our partners are Borders College, Edinburgh College, Fife College, Forth Valley College and West Lothian College. For Business our

partner is Edinburgh College. Contact your local partner College to apply for an Associate Student place.

### **The BTEC (Business and Technology Education Council)**

Edinburgh Napier accepts BTEC Nationals either as one equivalent qualification or alongside additional A-Levels, depending on the degree and entry requirements. It is normally considered for entry onto a related course and is increasingly gaining popularity as an alternative covering a whole range of academic levels.

Many of our degree programmes accept the BTEC Level 3 Extended Diploma with the standard 18-units being equivalent to three A-Levels.

Applicants should check our website for up-to-date minimum grade requirements for their subject of interest.

### **Foundation Apprenticeships**

Edinburgh Napier accepts applications from students who apply having studied a Foundation Apprenticeship which offer you an excellent opportunity to undertake valuable work-based learning alongside other qualifications. This ensures you gain the necessary skills, knowledge and experience to prepare you for entry.

We will accept the Foundation Apprenticeship for entry to all courses across the University and completion of this qualification would normally, as a minimum, equate to one SQA Higher, although in some subject areas the qualification may receive additional credit towards entry.

Where specific subjects at Higher or National 5 are required for entry to a degree programme, the Foundation Apprenticeship would not ordinarily replace this requirement.

### **T-level qualifications**

Edinburgh Napier is supportive of the new T-level qualifications. The overall grade required for entry may vary depending on the course you have applied for, however, students will typically be asked to obtain a Merit to gain entry to the majority of our courses, with a Pass (C or above) for courses that ask for CCC at A-level. Please note, if your course requires a specific subject at A-level/Higher you should contact Admissions to confirm your T-level meets this requirement, prior to submitting your UCAS application.

---

## **FEES AND FINANCE**

[napier.ac.uk/fees](https://napier.ac.uk/fees)

Understanding the financial implications of coming to university can sometimes be tricky, but we're here to help.

These pages provide fees and funding information but if you need more details please contact us:

**napier.ac.uk/fees**

+44(0) 333 900 6040

[ugadmissions@napier.ac.uk](mailto:ugadmissions@napier.ac.uk)

## Students from Scotland

**Fees (full time):** If you live in Scotland and satisfy certain residency requirements your tuition fees will normally be paid for you by the Student Awards Agency for Scotland (SAAS). You must apply to SAAS each year to ensure your tuition fees are paid. If you are not eligible for SAAS support fees, tuition fees are currently £1,820 per year.

**Fees: (part time):** If you are studying part time and meet the SAAS eligibility criteria you can apply for a Part-time Fee Grant (PTFG) to help cover the cost of tuition fees each year. The amount you are entitled to is dependent upon the number of credits you are studying and the level.

**Living costs** (not nursing): To help cover your living costs you may also be eligible for support from SAAS in the form of a bursary and/or Living Cost Loan.

**Nursing students:** As well as SAAS support to cover tuition fees for all eligible Nursing students, there is also a non-income assessed bursary totalling £10,000 per year, in addition to additional grants depending on your personal circumstances.

For more information visit the Student Awards Agency for Scotland: [saas.gov.uk](https://saas.gov.uk)

## Students from UK (outside Scotland) and Republic of Ireland

**Fees:** If you normally live in England, Northern Ireland, Wales, Channel Islands, Isle of Man or the Republic of Ireland (ROI), you are likely to be assessed as liable to pay the Rest of UK/ROI tuition fee rate, regardless of the subject you are studying. Fees for those starting in 2023 are £9,250 per year. You should NOT have to pay tuition fees up front – you can apply for a tuition fee loan to cover the cost from your relevant student funding body.

**Fee waiver:** The majority of undergraduate honours degrees in Scotland are four years in length, whilst across the other nations in the UK they are usually three. If you are looking to join us and your degree will take three or four years to complete, Edinburgh Napier will only charge Rest of UK/ROI students £9,250 per year for the first three years of study with us. This means we automatically provide you with a fee waiver for your fourth year of study. If you are planning to study one of our degrees that usually takes five years to complete (e.g. Integrated Masters) you will only pay fees for your first four years of study with us and automatically gain a fee waiver for your fifth year of study.

**Living costs:** To assist with covering your general living costs you may also be eligible for support from your funding body which will usually issue living cost loans, bursaries and/or grants – these vary depending on your student funding.

**Bursaries and scholarships:** In addition to any funding from your student funding body, you may also be eligible for funding from us. We provide a generous package of cash award bursaries, up to £3,000 per year. This means you could receive up to £12,000 in bursaries (money you do not have to pay back), in addition to the £9,250 fee waiver for your fourth year of study.

Our main bursaries are:

**Access Bursary** – up to £2,000 per year, available to all eligible students with an approximate household income of £42,600 or less.

**Merit Bursary** – £1,000 per year, available to any Rest of UK/ROI student achieving BBB or higher in their A-levels (or equivalent qualifications) or H1, H1, H2, H2, in the Irish leaving Certificate.

**Student Funding Bodies:**

Scotland: [saas.gov.uk](https://saas.gov.uk)

England: [gov.uk/student-finance](https://gov.uk/student-finance)

N. Ireland: [studentfinancenir.co.uk](https://studentfinancenir.co.uk)

Wales: [www.studentfinancewales.co.uk](https://www.studentfinancewales.co.uk)

Republic of Ireland: [saas.gov.uk](https://saas.gov.uk)

## FEES, FINANCE AND VISAS

### Students from the European Union

As of January 2020, the UK officially left the European Union which resulted in some changes to student finances for those coming from the EU.

#### EU students (excluding Republic of Ireland)

EU students who do not hold settled or pre-settled status will usually be eligible to pay the Overseas tuition fee. Please consult your course page on our website to confirm the fee amount. To assist self-funding EU domiciled students, the University offers a partial merit-based scholarship of £3,000.

[napier.ac.uk/UG-EUfees](https://napier.ac.uk/UG-EUfees)

#### Republic of Ireland students

Students from the Republic of Ireland, who have normal residency in Ireland will be eligible to pay tuition fees of £9,250 per year, which is aligned with the fee for students from the Rest of UK.

Please check out the details of fee waivers and bursary schemes available for both Rest of UK and Republic of Ireland students.

## **International students**

**Fees:** The amount of tuition fees for our undergraduate courses varies depending on your course. For courses in academic year 2023/24 fees are expected to range from £ 14,180 to £16,440 depending on your chosen subject of study. Please see the course pages on our website for the confirmed 2023 tuition fee rates when available.

If your fees are more than £6,500 and you need a Confirmation of Acceptance of Studies (CAS) to apply for your student visa, we require a pre-payment of £3,500 before you will receive your CAS. If your fees are less than £6,500, we will require advance payment in full. For further information on fees, see [napier.ac.uk/internationalfees](https://napier.ac.uk/internationalfees)

## **Scholarships:**

We offer a variety of financial support, including scholarships, bursaries and grants. These are awarded for a wide variety of reasons and have differing eligibility. For more details, please visit: [napier.ac.uk/UG-INTfunding](https://napier.ac.uk/UG-INTfunding)

## **Online students**

Tuition fees for our online degrees are payable directly to the University. Please see the course listing on our website for more information on fees for online courses.

## **All students – changes to tuition fees**

Please note that tuition fees are subject to change and there may be an annual increment in the cost of tuition fees while you are at the University, taking into account the following circumstances:

- Any increase set or prescribed by regulatory bodies (other than the University) such as the Students Awards Agency for Scotland (SAAS) and the UK Government; and/or
- Changes to the cost of delivering our programmes.

Factors taken into account include inflationary measures, such as the retail price index (RPI), projected increases in university costs, changes in the level of grant from the Scottish Funding Council, costs of provision of teaching, supervision and course-related facilities.

## **Visas**

International and EU/EEA students looking to study with us in 2023/24 will need to have immigration permission. This will usually be through the Student Visa route or by the EU settlement scheme.

Please note that the Student Visa is the new visa which has replaced the previous Tier 4 (General) student visa. To assist you in applying for your visa or to answer any immigration questions you may have, we have a dedicated Visa and International Support team.

For full details and support materials relating to visas and immigration, please visit: [napier.ac.uk/UG-visas](https://napier.ac.uk/UG-visas)

**For further information about our 2023 tuition fees see**

## **ADMISSIONS – USEFUL INFORMATION**

### **Universities and Colleges Admissions Services (UCAS)**

Applications for all our full-time undergraduate courses are processed through the centralised Universities and Colleges Admissions Services (UCAS) system. The application process is the same whether you are coming from school, college or are an independent applicant. You'll need the Edinburgh Napier institution code, which is **ENAP E59**, along with the course code of your chosen programme of study. Apply online at: [www.ucas.com](http://www.ucas.com).

Guidance on the application process and all course codes are listed on the UCAS website. You can also find useful information on its website on how to track progress of your application once it has been submitted.

Applications for part-time study are made online via our website from your chosen course information page. Find your chosen course and click the apply button.

### **Our entry requirements**

You will find information on entry requirements for each course outlined on the relevant subject page of this prospectus. However, it's not possible to list all the qualifications we accept in this prospectus. If you would like to know how your qualifications fit our requirements, please see the full course listings on our website. Or contact us for guidance on entry requirements and to discuss your options by emailing: [ugadmissions@napier.ac.uk](mailto:ugadmissions@napier.ac.uk)

### **Our admissions policy**

The University is committed to ensuring we are accessible to the widest range of students who can benefit from higher education. We seek to admit any student who has the potential to succeed and benefit from our programmes. Visit our website, or contact us for a copy of our Admissions Policy and Contextual Admissions Policy which explain how we consider each application we receive: [napier.ac.uk/admissions-policy](http://napier.ac.uk/admissions-policy)

### **Widening access team**

We support a wide range of applicants from all backgrounds and diverse learning paths. Get in touch with our team to see how we can help you start your journey into higher education: [wideningaccess@napier.ac.uk](mailto:wideningaccess@napier.ac.uk)

### **English language requirements**

If English is not your first language you may need proof of an English language qualification. If you do not hold an approved English language qualification you may be required to sit an English language test, such as IELTS or TOEFL. To find out if you need to sit an English language test, visit: [napier.ac.uk/your-country](https://napier.ac.uk/your-country)

### **International students**

We welcome applications from all over the world. If you are applying from outside the EU, it is best to apply as soon as possible to give yourself enough time to make all the necessary arrangements for your visa, and to organise your travel and accommodation. The UCAS application deadline for non-EU applicants is 30 June 2023. Country-specific requirements can be found at: [napier.ac.uk/your-country](https://napier.ac.uk/your-country)

### **More information**

We have plenty of useful information on our website to help answer any questions you may have on our admissions process, specific courses and any other general enquiries. Please go to: [napier.ac.uk/undergraduate](https://napier.ac.uk/undergraduate)

### **UCAS**

For help on course application and tracking, contact:

BA (Hons) International Tourism & Airline Management

---

### **Disclaimers**

1. The University endeavours to deliver courses and programmes of study in accordance with the description set out in this prospectus. The University's prospectus is produced at the earliest possible date in order to provide maximum assistance to individuals considering applying for a course of study offered by the University. The University makes every effort to ensure that the information contained in the prospectus is accurate but it is possible that some changes will occur between the date of printing and the start of the academic year to which it relates.

Please note that the University's website is the most up to date source of information regarding courses and facilities and we strongly recommend that you always visit the website before making any commitments.

2. Although reasonable steps are taken to provide the programmes and services described, the

University cannot guarantee the provision of any course or facility and the University may make variations to the contents or methods of delivery of courses, discontinue, merge or combine courses and introduce new courses if such action is reasonably considered to be necessary by the University. Such circumstances include (but are not limited to) industrial action, lack of demand, departure of key staff, changes in legislation or Government policy, withdrawal or reduction of funding or other circumstances beyond the University's reasonable control.

3. If the University discontinues any courses, it will use its reasonable endeavours to provide a suitable alternative course. In addition, courses may change during the course of study and in such circumstances the University will normally undertake a consultation process prior to any such changes and seek to ensure that no student is unreasonably prejudiced as a consequence of any such change.

4. The University does not accept responsibility, and excludes any liability for damage to students' property (other than through the negligence of the University, its staff or agents), or for the consequences of any modification or cancellation of any course, or part of a course, offered by the University but will take into consideration the effects on individual students and seek to minimise the impact of such effects where reasonably practicable.

5. The University cannot accept any liability for disruption to its provision of educational or other services caused by circumstances beyond its control, but the University will take all reasonable steps to minimise the resultant disruption to such services.

### **University rules, regulations and policies**

As a condition of enrolment, all students will be required to abide by and submit to the University's Rules, Regulations and Policies, including Student Conduct Regulations, Academic Regulations, Library and Computing Regulations and Health and Safety Rules. These may be viewed at: [napier.ac.uk/regulations](http://napier.ac.uk/regulations) or may be requested by email to: [studentrecruitment@napier.ac.uk](mailto:studentrecruitment@napier.ac.uk). Our terms and conditions are available on [mynapier.ac.uk](http://mynapier.ac.uk).

### **Equal Opportunities**

Edinburgh Napier University is committed to providing learning opportunities for all and is aiming to create an environment in which students are selected solely on the basis of merit. It is committed to equality of opportunity for all and will not unlawfully discriminate on any grounds.

### **Data protection**

Edinburgh Napier University processes personal data in compliance with the Data Protection Act 2018. Please visit [staff.napier.ac.uk/dpstatements](http://staff.napier.ac.uk/dpstatements) for more information.

### **Sustainability**

At Edinburgh Napier University we are committed to reducing the environmental impact of our activities. With a dedicated Sustainability Office, working with all students and staff, we are striving to create an even more environmentally aware ethos. For further information, contact: [sustainabilityoffice@napier.ac.uk](mailto:sustainabilityoffice@napier.ac.uk)
