**BE GOOD** 

John Hails

solo horn

2008

This work was written for Fergus Kerr, who gave the first performance at Canongate Kirk, Edinburgh 28/09/08 as part of the Sonic Fusion Festival 2008 on 28<sup>th</sup> September 2008.

Elliott Carter
Lives in New York and I've never met him but I'd
Like to. Reading about his music has always
Influenced me since I was eighteen
Or so, and helped me to become the composer that I am
Today. This piece is my chance to say 'Happy Birthday Elliott Carter!'. And the
Title? I took it from ET ('Be good Elliott'). It just seemed fitting somehow.

## BE GOOD John Hails

## solo horn

## notation

The part is written in F, not in sounding pitch.

In section II, fingering has been provided for all pitches, as well as an indication of whether the F or Bb valve is used.

The notation above the horn line indicates the fraction of stopping that is to be applied. These are expressed as eighthtones (see below) but should not necessarily be interpreted as exact measurements, but as an approximate indication of the fraction of the stoppage, with the semitone indicating that the horn is to be half-stopped (hence a semitone flat).

- open
- 1/8<sup>th</sup> stopped (approx. 25 cents flat)
- 1/4<sup>th</sup> stopped (approx. 50 cents (quartertone) flat)
- 3/8<sup>th</sup> stopped (approx. 75 cents flat)
- 1/2<sup>th</sup> stopped (semitone flat)

In a passage such as this, the arrow indicates that the hand position should slowly be changed from ¼ stopped to 3/8 stopped over the space of the notated duration. Fingering indications have been used throughout, and where fingering is not specified, the player should assume that it remains the same.

Uncorrected harmonics have been notated throughout the score as demonstrated in the series based on the open position:

The fifth and tenth harmonics are 9 cents sharper than in an equal tempered scale, and the seventh harmonic is 33 cents flatter than in an equally tempered scale (1/6<sup>th</sup> tone). This has been expressed in the unorthodox notation above (and in the horn part).
