# School of Computing

Based in the largest city in the UK for tech start-ups outside of London, we give students industry-recognised accreditations and skills to go beyond binary code to shape the world around them. We are experts in cybersecurity, digital forensics, gaming development and creative computing.

- Extensive accreditation, including GCHQ certification, and industry work placements.
- The Cyber Academy attracts a wide range of collaborative ventures with industry and international partners.
- 2015 winners of the Tripwire Capture the Flag competition, the University Cipher Challenge and Universally Challenged.

# BEng/BEng (Honours) Computer Security & Forensics

Combines three of the most sought-after streams of computing and capitalises on the rising awareness of the importance of network security.

First two years of general computing studies lead to the specialty areas of security and forensics, software development and computer networks studied in the two final years of the course.

Cisco CCNA accreditation

[Course page](#)

*"Students develop skills in collecting, preserving, analysing and reporting on security and digital forensic investigations, graduating with a qualification that can include Microsoft and Cisco professional certification."*

The background of the slide is a photograph of a golf green. In the foreground, several clear plastic cups are placed on the grass, each containing a golf ball. The balls are arranged in a line, receding into the distance. In the background, a golfer is visible, but they are out of focus. The overall scene suggests a connection between science and sports.

# School of Applied Sciences

We go beyond learning. Putting theory into practice is our guiding ethos, using science to help you make a difference.

- A top 10 of modern UK university for Bioscience, Psychology and Social Sciences (Guardian University Guide 2017).
- Biomechanics partner for the R&A, the governing body of golf.
- Founding partners of the Mountain Bike Centre of Scotland which acts as a focal point for training, research and support for commercial opportunities in mountain biking.
